

Setting up Application Environment

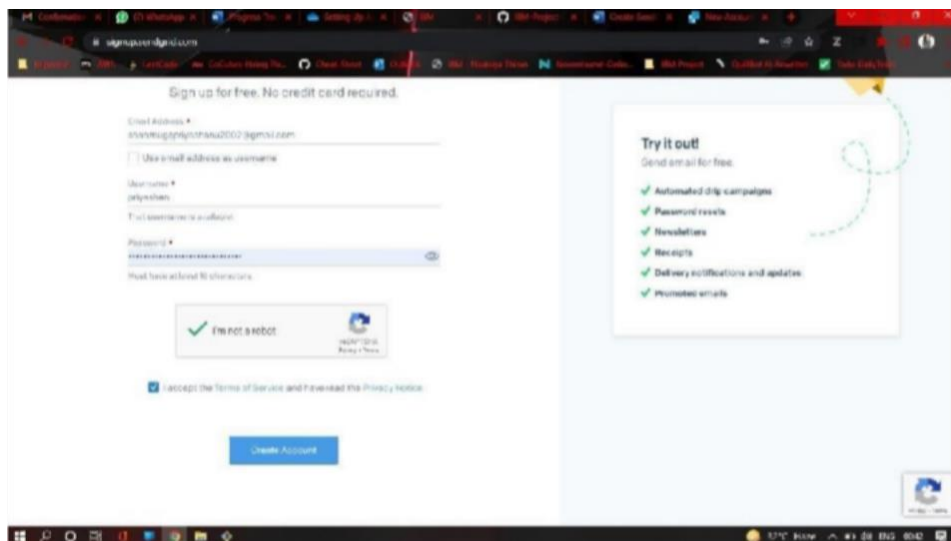

Create Sendgrid Account

Step 1. Navigate to <https://sendgrid.com>

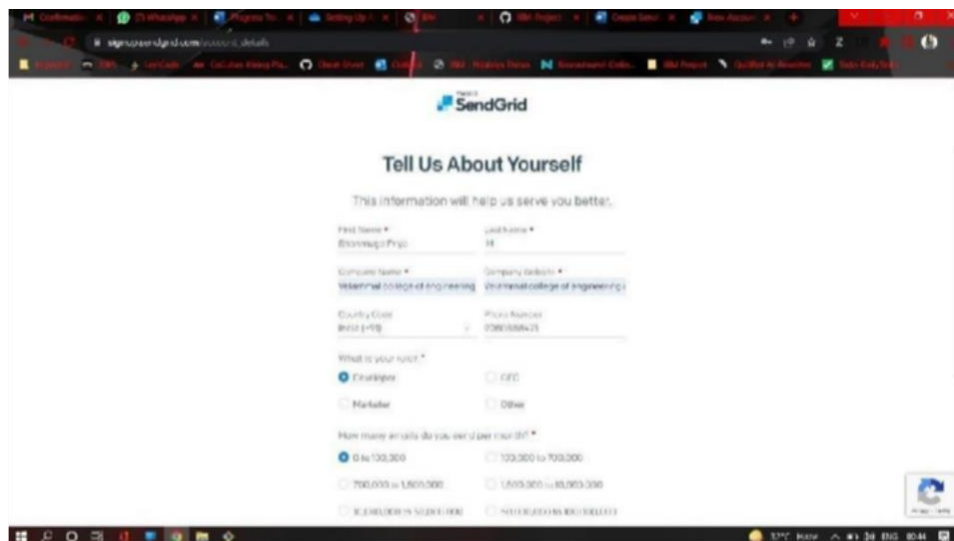

Step 2. Click on “Start for free” and register yourselves by entering required details and click on create account

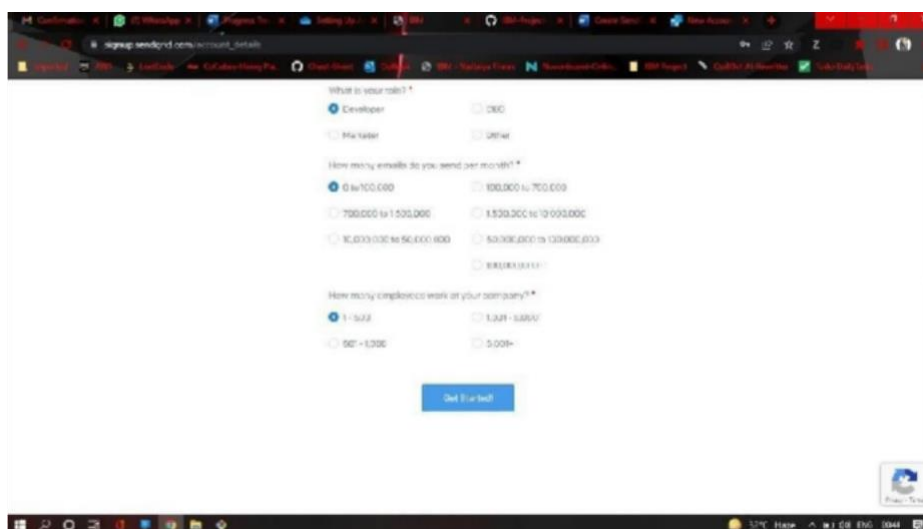

Step 3. Further fill all required details in next page and click on get started as shown below

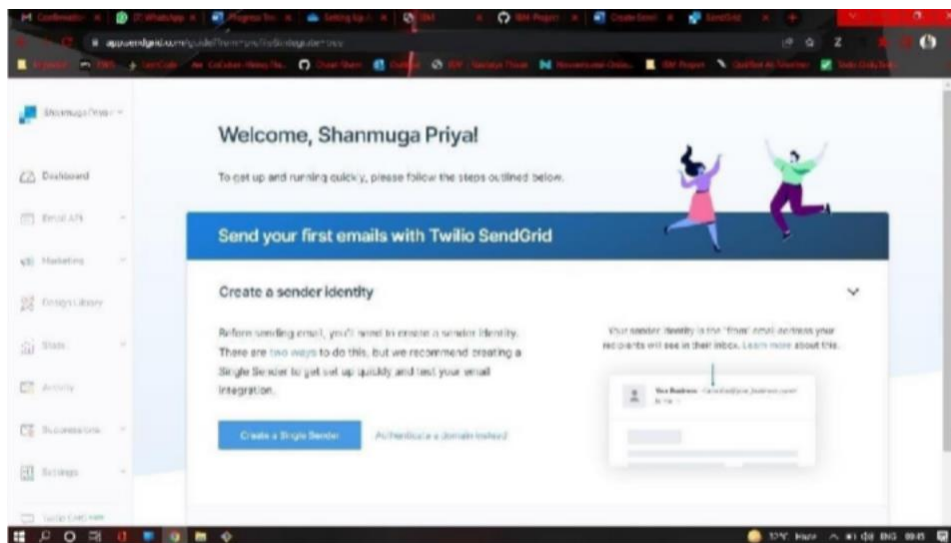

The screenshot shows the 'Tell Us About Yourself' page on the SendGrid website. The page includes a header with the SendGrid logo and a sub-header stating 'This information will help us serve you better.' Below this, there are several form fields and radio button options. The 'First Name' field is filled with 'Bhaskar', and the 'Last Name' field is filled with 'R'. The 'Company Name' field is filled with 'Western college of engineering', and the 'Company Website' field is filled with 'westerncollegeofengineering.com'. The 'Country Code' is set to '+91', and the 'Phone Number' is '9786058425'. Under 'What is your role?', the 'Developer' radio button is selected. The 'How many emails do you send per month?' section has several radio button options, with '0 to 100,000' selected. The 'How many employees work on your company?' section has several radio button options, with '1-999' selected. A 'Get it now!' button is located at the bottom right of the form.

This screenshot shows a portion of the SendGrid account setup page, specifically the 'What is your role?' section. The 'Developer' radio button is selected. Below this, the 'How many emails do you send per month?' section is visible, with the '0 to 100,000' radio button selected. The 'How many employees work on your company?' section is also visible, with the '1-999' radio button selected. A 'Get it now!' button is located at the bottom right of the form.

Step 4. That's it you have created your SendGrid account and got access to dashboard

**Output:**

Send Grid account created successfully.
